KIMONALL

All of Kimonos, for All People

In the past, kimono were a familiar part of everyday life in Japan. Wearing one could make you feel happy, or even a little nervous—as if you were stepping into a different version of yourself. But for those unfamiliar with kimono, they can feel like a high hurdle. Wearing one, or helping someone put one on, takes a lot of effort. And once it's on, even a simple trip to the restroom can be a challenge. That's why we created KIMONALL. With a two-piece design, it's as easy to wear as a shirt or skirt. We hope kimono can become a natural part of your everyday life again—and bring a touch of beauty to your daily moments.

Change — in an instant.
